#### INDEPENDENT AUDITOR'S REPORT

Members of the Board Colon Community Fire and Rescue Department

We have audited the accompanying financial statements of the governmental activities and the major fund of the Colon Community Fire and Rescue Department, Michigan, as of and for the year ended March 31, 2006, which collectively comprise the Department's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Colon Community Fire and Rescue Department management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Colon Community Fire and Rescue Department, as of March 31, 2006, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison schedules, as identified in the table of contents, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

July 2, 2006

Nomen & Parlow, P.C.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the Colon Community Fire and Rescue Department financial performance provides an overview of the Department's financial activities for the fiscal year ended March 31, 2006. Please read it in conjunction with the Department's financial statements.

#### Financial Highlights

The Department's overall financial position decreased by \$14,690 during the fiscal year ended March 31, 2006, which represents 5 percent of the net asset position at the beginning of the year. This decrease was primarily the depreciation expense on vehicles and equipment in the amount of \$29,349.

The Department's Governmental Funds reflected a total fund balance at March 31, 2006 of \$95,858, which was an increase of \$6,159 from the prior year end.

The total Governmental Fund expenditures for the year ended March 31, 2006, amounted to \$126,620, of which \$121,477 were funded from intergovernmental support.

#### Using This Annual Report

This annual report consists of a series of financial statements. The statement of net assets and the statement of activities provide information about the activities of the Department as a whole and present a longer-term view of the Department's finances. This longer-term view uses the accrual basis of accounting so that it can measure the cost of providing services during the current year, and whether the supporting governmental units have funded the full cost of providing government services.

The Fund financial statements present a short-term view; they tell us how the supporting governmental units' resources were spent during the year, as well as how much is available for future spending. Fund financial statements also report the Department's operations in more detail than the government-wide financial statements by providing information about the Department's most significant funds.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

#### The Department as a Whole

The following table shows, in a condensed format, the net assets as of the current year end and compared to the prior year end under the modified accrual basis of accounting:

		Governmental Funds			
		2006		2005	
Assets	\$	100,128	\$	93,821	
Liabilities		4,270		4,122	
Fund Balance	<u>\$</u>	95 <b>,</b> 858	\$	89 <b>,</b> 699	

The following table shows, in a condensed format, the net assets of the current year end and compared to the prior year end as required by GASB 34 stated under the full accrual basis.

	Governmental <u>Activities</u>				
		2006		2005	
Current and other assets Capital assets	\$	100,128 175,974		93,821 196,823	
Total assets		276,102		290,644	
Current and other liabilities		4,270		4,122	
Net assets Invested in capital assets, net of related debt Unrestricted		175,974 95,858		196,823 89,699	
Total net assets	\$	271,832	\$	286,522	

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

The following table shows the changes of the net assets during the current year as compared to the prior year, under the modified accrual basis of accounting:

	Governmental Funds			
Description		2006		2005
Revenue Intergovernmental support Interest Insurance Miscellaneous	\$	121,477 546 7,256 3,500	\$	126,825 700 4,706 125
Total revenue		132,779		132,356
Program expenses Public safety		126,620		130,651
Excess (deficiency)	\$	6,159	\$	1,705

The following table shows, in a condensed format, the changes in net assets during the current year as compared to the prior year as required by GASB 34 stated under the full accrual basis of accounting.

		Governmental Activities			
Revenues	_	2006	2005		
Program revenues Charges for services General revenues	\$	128,733 \$	131,531		
Investment earnings Miscellaneous		546 3,500	700 125

Expenses Public safety - fire protection		147,469	159 <b>,</b> 575		
Change in net assets	<u>\$</u>	(14,690) \$	(27 <b>,</b> 219)		

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

#### The Department's Funds

Our analysis of the Department's major funds begins on page 8, following the government-wide financial statements. The fund financial statements provide detailed information about the significant funds, not the Department as a whole. Major funds for the fiscal year ended March 31, 2006 include the General Fund. The General Fund pays for all of the Department's public safety services and is funded primarily by charges to participating governmental units.

#### General Fund Budgetary Highlights

As shown in the required supplemental information, the Department budgeted a decrease of \$14,297 in the original budget. Actual operating results ended up as an increase of \$6,159.

The original budget was not amended.

#### Capital Assets and Debt Administration

During the year ended March 31, 2006, the Department had major repairs on the tanker truck in the amount of \$8,500.

The Department has no long-term debt obligations.

#### Contacting the Department's Management

This financial report is intended to provide our citizens, taxpayers, customers, and investors with a general overview of the Department's finances and to show the Department's accountability for the money it receives. If you have questions about this report or need additional information, we welcome you to contact the Colon Community Fire and Rescue Department.

#### GOVERNMENTAL FUNDS RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO NET ASSETS OF GOVERNMENTAL ACTIVITIES MARCH 31, 2006

Total governmental fund balances

\$ 95,858

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.

Governmental capital assets \$ 597,470 Less accumulated depreciation (421,496) 175,974

Net assets of governmental activities

271,832

## GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES YEAR ENDED MARCH 31, 2006

		General Fund
REVENUES Intergovernmental support Interest Insurance Miscellaneous	\$	121,477 546 7,256 3,500
Total revenues		132,779
EXPENDITURES Public safety Capital outlay  Total expenditures	_	118,120 8,500 126,620
EXCESS OF REVENUES OVER EXPENDITURES		6,159
FUND BALANCE - BEGINNING OF YEAR		89 <b>,</b> 699
FUND BALANCE - END OF YEAR	\$	<u>95,858</u>

#### GOVERNMENTAL FUNDS

#### RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED MARCH 31, 2006

Net change in fund balances - total governmental funds \$ 6,159

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives.

Expenditures for capital assets 8,500
Depreciation expense (29,349)

Change in net assets of governmental activities  $\frac{$(14,690)}{}$ 

## NOTES TO FINANCIAL STATEMENTS MARCH 31, 2006

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Colon Community Fire and Rescue Department conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The more significant accounting policies establishing GAAP and used by the Department are discussed below.

#### Reporting Entity

The Colon Community Fire and Rescue Department, by law, is not a separate entity, but a fund shared by the participating governmental units. The Colon Village Board and the Colon Township Board have allowed the Department to report as a separate unit.

The Colon Community Fire and Rescue Department operates under a Chairman - joint board form of government and provides the following services as authorized under its inter-local agreement:

Provide fire and rescue protection services to the Village of Colon and the Township of Colon.

Basis of Accounting - Government-Wide Financial Statements - The statement of net assets and the statement of activities display information about the Department as a whole. They include all funds of the reporting entity except for fiduciary funds. These statements distinguish between activities that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in preparation of the proprietary fund financial statements but differs from the manner in which the governmental fund financial statements are prepared. Therefore, governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

## NOTES TO FINANCIAL STATEMENTS MARCH 31, 2006

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, and program revenues for each segment of the business-type activities of the Department and for each governmental and component unit program. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Some functions, such as administrative and financial services include expenses that are, in essence, indirect expenses of other functions. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program.

Revenues which are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program is self-financing or draws from the general revenues of the Department.

Net assets should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available, it is the Department's policy to use restricted resources first, then unrestricted resources as they are needed.

Basis of Accounting - Fund Financial Statements - Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. A fund is considered major if it is the primary operating fund of the Department or meets the following criteria:

\* Total assets, liabilities, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

## NOTES TO FINANCIAL STATEMENTS MARCH 31, 2006

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

\* Total assets, liabilities, revenues or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

The Department reports the following major funds:

**General Fund** - The general fund is the general operating fund of the Department. The fund is used to account for all financial transactions except those required to be accounted for in another fund. Revenues are derived primarily from other governmental units.

The following is a description of the major category and fund type within that category:

Governmental Fund - All governmental funds are accounted for using modified accrual basis of accounting and the current financial resources measurement focus. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become susceptible to accrual (i.e., when they become both measurable and available). Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Revenue Recognition - "Measurable" means the amount of the transaction can be determined and "available" means collectable within the current period or soon enough thereafter to be used to pay liabilities of the current period. The Department considers intergovernmental support, interest revenue and charges for sales and services as susceptible to accrual if the amount was due on or before fiscal year end and collection was within one year after year end. Reimbursements due for state and federally funded projects are accrued as revenue at the time the expenditures are made, or when received in advance, deferred until expenditures are made. All other revenue is recognized as payments are received.

## NOTES TO FINANCIAL STATEMENTS MARCH 31, 2006

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Expenditure Recognition - The measurement focus of governmental accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt, which has not matured, are recognized when paid. Allocation of costs, such as depreciation and amortization, are not recognized in the governmental funds.

The following is a description of the governmental fund types of the Department:

**General Fund** - The general fund is the general operating fund of the Department. The fund is used to account for all financial transactions except those required to be accounted for in another fund. Revenues are derived primarily from other governmental units.

Budgets and Budgetary Accounting - Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are legally adopted for the general fund. The Department adopts its budget in accordance with Public Act 621, the Uniform Budgeting and Accounting Act, which mandates an annual budget process and an annual appropriation act to implement the budget.

**Deposits and Investments** - Statutes authorize the primary government and component units to invest in the following:

- \* In bonds, securities and other obligations of the United States or agency or instrumentality of the United States.
- \* In certificates of deposit, savings accounts, deposit accounts or depository receipts of a bank which is a member of the Federal Deposit Insurance Corporation, a saving and loan association which is a member of the Federal Savings and Loan Insurance Corporation or a credit union which is insured by the National Credit Union Administration.
- \* In commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase.
- \* In United States government of federal agency obligation repurchase agreements.

## NOTES TO FINANCIAL STATEMENTS MARCH 31, 2006

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

- \* In banker's acceptances of United States banks.
- \* In obligations of this state or any of its political subdivisions that at the time of purchase are rated as investment grade by not less than one standard rating service.
- \* In mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Receivables and Payables - Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from other funds." All other outstanding balances between funds are reported as "due to/due from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances".

All trade receivables are shown as net of allowance for uncollectible amounts.

**Prepaid Items** - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Capital Assets and Depreciation - Capital assets, which include vehicles and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Department as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost of purchase or construction. Contributed assets are recorded at estimated fair market value at the date of donation. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are also capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

•	
	Depreciable
	<u>Life-Years</u>
Machinery and equipment	5-20
Vehicles	5-20

## NOTES TO FINANCIAL STATEMENTS MARCH 31, 2006

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### NOTE 2 - CASH AND CASH EQUIVALENTS

The Department uses financial institutions for cash and cash equivalent purposes, which are in accordance with statutory authority.

The accounts maintained in the financial institutions are checking and savings.

At March 31, 2006, the carrying amount of the Department's deposits was \$82,419 and the bank balance was \$93,305. The differences between the balances are the result of checks issued by the Department but not yet presented for payment. The risk exposure of all cash and cash equivalents at March 31, 2006, is as follows:

Insured Uninsured					\$	93,305
Total	cash	and	cash	equivalents	\$	93,305

## NOTES TO FINANCIAL STATEMENTS MARCH 31, 2006

#### NOTE 3 - CAPITAL ASSETS

Capital assets activity for the year ended March 31, 2006, was as follows:

		Balance April 1, 2005		Additions		Disposals		Balance March 31, 2006
Primary Government						<u>.</u>		
Governmental activities								
Capital assets, be depreciated:								
Vehicles Machinery and	\$	523,464	\$	8,500	\$	_	\$	531 <b>,</b> 964
equipment		65,506			_		_	65,506
Subtotal		588 <b>,</b> 970		8,500		-		597,470

Subtotal		392,147		29,349				421,496
Net capital assets being depreciated	<u>\$</u>	196,823					\$	<u> 175,974</u>

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:

Public safety \$ 29,349

## NOTES TO FINANCIAL STATEMENTS MARCH 31, 2006

#### NOTE 4 - RISK MANAGEMENT

The Department is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation). The Department has purchased commercial insurance for most risks of loss to which it is exposed. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

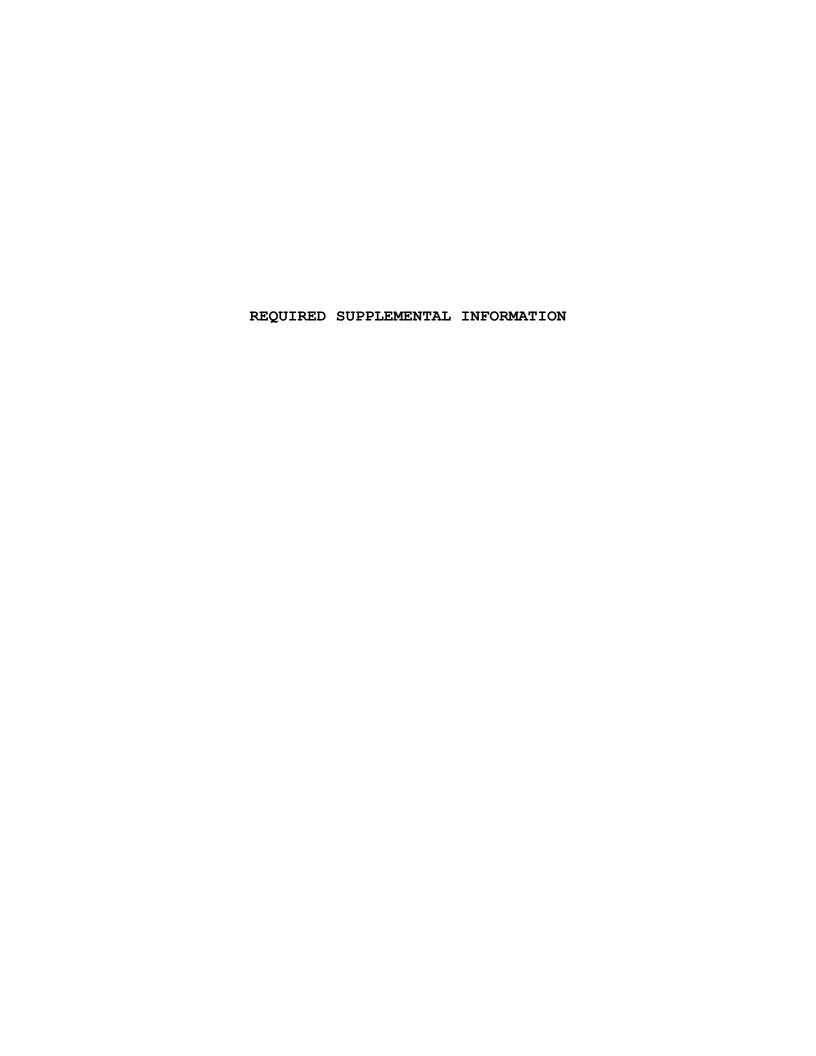

#### NOTE 5 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The annual budget is prepared by the Department management and adopted by the Department Board; subsequent amendments are approved by the Department Board. Unexpended appropriations lapse at year-end; encumbrances are not included as expenditures. During the current year, the budget was not amended.

The budget has been prepared in accordance with generally accepted accounting principles.

State statutes provide that a local unit shall not incur expenditures in excess of the amount appropriated. The approved budgets of the Department were adopted on a fund level basis.

During the year ended March 31, 2006, the Department incurred no expenditures in excess of the amounts appropriated at the legal level of budgetary control.
